

Accessory Add-Up

Create a Professional Image: Did you know that over 90% of lasting impressions come within the first four minutes of meeting? Looking stylish has nothing to do with dress size, weight or height. It is about being the best “you” you can be! Investing a little time and effort into the way we “package” ourselves makes a big difference!

4 Elements of a Polished, Professional Look:

- Haircut and color
- Makeup and manicure
- A working wardrobe
- Eye-catching accessories

Fashion Information courtesy of your
FAVORITE Premier Designs “Jewelry Lady!”

Fashion consultants often use a point system to be sure a look is neither overdone nor boring.

Give yourself one (1) point for each of the following, and an extra point for any item that is especially bold and eye-catching!

- _____ Each visible item of clothing
- _____ Each accent color
- _____ Each patterned/textured fabric
- _____ Each decorative trim
- _____ Each piece of jewelry
- _____ Colored nail polish
- _____ Colored or textured hose
- _____ Handbag
- _____ Briefcase
- _____ Contrasting belt
- _____ Scarf
- _____ Decorative buttons
- _____ Eyeglasses
- _____ Hose that blend with shoes
- _____ Low-heeled (not flat) shoes
- _____ **Total**

If your total falls below eight you probably need to add an accent or two to avoid looking bland.

If you score over 14 you are probably overdressed. Remove or change something to create a more pleasing, unified appearance.
